## Telegram Channel For Pedes!

Hi guys. I know a lot of you don't like telegram because you need a phone number. I've personally been on it for a year because most uniswap cryptocurrency communities are there.

Telegram is an encrypted platform, but obviously nothing is perfect. There have been a few cases of telegram channels getting removed, but only via apple, who gave telegram a list of communities to ban on apple under threat of removing them from the app store. I don't think our community is under threat.

I saw discord went down. If you're up for a small channel to discuss Trump's Jan 6th Rubicon crossing and maybe meet some pedes to go with feel free to join.
